- ▶ Typescript

## SUMMARY

I'm pediatrician and software developer. **Have been in the software industry since 2002.** Developed applications for my own working life and education. Studied medicine and continued my path with pediatrics as a specialty. During my education, continued to develop software and developed freelance software projects. In 2002 started desktop development and in 2013 started **full stack web development.**

## WORK HISTORY

### Freelance Web Developer — 2013-Present

Developing full stack web applications for all sectors.

## PROJECTS

### Co-founder @ NOBETIM
